POL-4TL-OUT Power Adapter

Thank you for purchasing XTC Power Products Plug & Play Power Adapter for License Plate Light or Whip Light. This adapter fits Polaris UTV’s that have LED Tail Lights with a 4 Pin Connector.

For more details on installation go to www.xtcinstall.com

Please read the instructions fully and familiarize yourself with the components before starting the install. Quick Install Guide.

This adapter interfaces at either tail light - Unplug either the Right or Left or on the new RZR Turbo S the third center light and plug our connector into the light and the factory connector into our adapter (in-line)

WARNING! Keep power wire away from any hot or moving parts.

Run the adapter power wires to License Plate Light or Whip Light.

Strip 1/4” off the red and black wires

Attach the red power wire to the positive wire on the light and the black wire to the negative using the supplied heat shrink butt connectors.

Using a heat gun heat the butt connectors at both ends to seal the connections

Using the supplied cable tie's, secure the power wire to the car once again making sure that the wire is kept away from any hot or moving parts.

For more details on installation go to www.xtcinstall.com. We can also be reached by email at support@xtcpowerproducts.com
